

I never listened to the radio much until K-Love(88.9) came into our area, now my radio is always on and always turned to their frequency. K-Love is a wonderful asset to the community because it is family friendly and encouraging. You never have to worry about what will be aired, or the lyrics in a song, or the words that will be said by the producers. K-love reaches out to the children, teenagers, families and older people in my community and I can't imagine the impact if it was taken away. I have supported this station for several years and will continue too. Please do not replace this station with a LPFM station, K-love is one of the best things that has happened to me, my family and this community. It offers people who are hurting, need encouraging, or need to rejoice and celebrate, a place to turn on the radio. K-love is a refuge for hundreds of thousands of people everyday all over the U.S. and the world, please don't take that refuge away. Thank you very much for your time and consideration of my comment. Sincerely, A. Beth Powell
